## EDUCATION

**WSB University**
Bachelor studies
Computer Science
Feb 2026 – Present | Poland
Specialization: Security & Continuity of IT.
Programming, mathematics and computer architecture.

**University of Constantine 1**
Mentouri Brothers University
Studies from Sep 2023 | Algeria
Science & Technology studies.
Foundation in mathematics, physics and engineering.

## SKILLS

**Programming & Data**
Python • SQL
Data analysis
Git • GitHub
Excel / Microsoft 365

**AI / ML Exploration**
Natural language processing
Generative AI & LLMs
Vector embeddings
Contextual retrieval
Conversational memory
Speech-to-text / text-to-speech

**Frameworks & Tools**
PyTorch
XGBoost • CatBoost
LangGraph • AutoGen
GecToR • ElevenLabs

**Models & Platforms**
Mixtral • OpenAI
NVIDIA

**Evaluation & Business**
Feedback quality criteria
Latency / cost trade-offs
Customer requirements
Workflow improvement

## LANGUAGES

**French** | Customer-facing use
**English** | B2
LanguageCert ESOL, High Pass
**Arabic** | Native

## PROFILE

Computer Science student focused on applied AI, natural language processing and LLM applications, with an ongoing conversational language-learning project. Exploring contextual retrieval, grammatical error correction and evaluation criteria for AI responses. Combines customer-facing French communication with experience in invoicing and spreadsheet management to connect business needs with practical AI use cases.

## AI EXPERIENCE

**STEALTH AI STARTUP | AI/ML Engineer**
Mar 2026 – Present | Part-time | Remote
Language-learning application with an AI avatar

- Designing an application where users practise speaking through conversations with an AI avatar.
- Exploring LLMs for dialogue generation and GecToR for grammatical error correction.
- Evaluating vector embeddings for contextual retrieval and conversational memory.
- Comparing ElevenLabs with local speech-to-text and text-to-speech models for voice interaction.
- Defining evaluation criteria for feedback quality, response latency and operating cost to guide model and tool selection.

## PROFESSIONAL EXPERIENCE

**MED'S BUILDING MATERIALS STORE**
**Retail Sales Assistant**
Apr 2025 – Jan 2026 | Full-time | Algiers, Algeria

- Assisted customers in French and Arabic, explaining products and recommending building materials suited to their requirements.
- Translated customer requirements into relevant product recommendations and complementary purchases.
- Handled complaints calmly and communicated available solutions clearly.

**MENTOURI CONSTRUCTION**
**Customer Support & Accounting Assistant**
Jun 2023 – Sep 2024 | Full-time | Hybrid | Algeria

- Answered customer inquiries in French and Arabic, clarified requirements and coordinated follow-ups.
- Prepared invoices and supported daily accounting, maintaining financial and customer records.
- Created and updated spreadsheets tracking invoices, customer information and business transactions.
- Used AI tools for administrative work; identified potential automation use cases in customer communication, invoice preparation and spreadsheet management.
